#### SHOULD STOP MASSACRES.

Again the annual massacre of Jews has begun in Russia and we are horrified by the stories of outrage and bloodshed that come from Kieff. How long we wonder will civilization permit this

It does seem that the United States might take the lead in a protest to Russia, that some diplomaic representation might be made which would check the terrible slaughter. Let this country act with decision and there will be a concert of approval from all other enlightened

Owing to the large number of Jews in this country and their intense loyalty as American citizens, the United States is in a position to protest. The massacres could be stopped with little difficulty were civilized nations not inclined to let them pass each year with nothing more than idle comment.

This government should resent in behalf of its Jewish citizens the continuance of such barbarities. Its protest need not be belligerent in tone, but should be sufficiently to the point to shame the government of Russia into protective action.

### THAT ALCOHOL TAX.

Who is responsible for the introduction of the bill that proposed that druggists should pay an annual tax of \$200 for the handling of alcohol? This is a question that is bothering a great many interested parties. Of course Assemblyman Coxe of Lincoln was the man who introduced the measure, but it is not generally believed that he did so of his own accord. It is the consensus of opinion that some "sorehead" with a peeve against the drug business, is behind the measure and simply made of Coxe a "goat."

However, the senate showed good sense in killing the measure, which was arbitrary and Credit is also due to Assemblyman Piercy of Nye county, who fought the measure in the lower house, and upon its passage, removed the scene of his activity to the senate, where he worked with such good results that the bill went down to the death that it deserved. -

## AGAINST THE GOVERNMENT.

"Thank God it's over," says one, say all, when referring to the last session of the legislature of the state of Nevada. Not a tear is shed over the corpse. Not a single regret is heard over the exit of that most useless body. Against the administration from start to finish was the late session. Absolutely the most noaccount bunch that ever journeyed to Carson to misrepresent the people of this state. Not an administration measure was introduced but that it met with the filibustering tactics and was eventually carried down to defeat. Instead of lending aid to a governor of sterling worth, the legislature blocked his every move and endeavored to tie his hands.

The moral to citizens: Remember these men when next you visit the polls. Twenty-three is the number for the assembly as a body and should be the number of its individual members at the next election.

## CORRUPT PRACTICE ACT.

By one solitary vote the assembly defeated senate bill No. 110, introduced by Senator Clay Tallman, and to that one vote great credit is due. The measure was one to "limit" the expenditures of officeseekers during campaign times, and it is said that one person, at least, was most anxious for its passage. Rumor also has it that the man most strongly in favor of the passage of this act is one who has aspirations to step into Senator Newlands' shoes at the next election. It might be well to add that the gentleman referred to and Mr. Newlands are both of the same political complexion, and the party who wishes to fill the place of the democratic senator expected to make the fight at a minimum cost. "Tis well the measure was defeated.

Senator Bailey has written to friends in Texas that he will resign for good if he finds that he cannot retain his toga with dignity. It is a safe bet that he has a long string on the resig-

Governor Dix of New York says all demoerats want harmony. Perhaps-but each individual democrat has his own peculiar and distinctive idea as to what constitutes harmony.

"General" Simon Berthold's threat to shoot the United States army if it dared to cross the Mexican frontier appears to have been effective. The United States army has not crossed the frontier. Doubtless it appreciated the ruthless determination of "General" Berthold. That shows how great and formidable a change of residence sometimes makes a man. In this country Bethold would have been vagged without resistance by a rural constable. In Mexico Bethold is a general and makes the whole United States keep off the

Senator Bailey's friends in the Texas legislature were forced to suppress a resolution commending his colleague, Senator Culberson, for voting to oust Lorimer. Senator Crane's friends in the Massachusetts legislature were forced to do the same thing with a resolution commending Senator Lodge for his vote against Lorimer. Praising Lodge in this connection would have been tantamount to condemning Crane. Crane and Lodge are personal friends, but Bailey and Culberson do not speak as they pass by.

The district attorney of Los Angeles is going to stop the exhibition of moving pictures which pretend to give scene from the revolution in Mexico, but which in reality are posed for by hired Mexicans in California. He says scenes of cruelty and horror have been worked into them artificially. There would be no other way of getting in such scenes. In the line of horrors the Mexican revolution is not doing much.

Senator Bailey resigned to spite his enemies. They rejoiced and he pulled back his resignation. Then he did spite them. They are sorry now that they let out a yell of joy too soon. Mr. Bryan is among those who would like to see Bailey back on the farm. Bryan says Bailey is not a democrat and Bailey is quite sure Bryan is not one. Others, however, think both are democrats because both are chronic kickers.

Commenting on Dr. Aked's acceptance of the pastorate of a San Francisco church, the Brooklyn Daily Eagle says, "Still it will grate him sorely to preach in a provincial town and to be reported, if at all, in provincial papers to which the press of Great Britain pays no attention." The Brooklyn Daily Eagle is printed in the bor-ough of Brooklyn, New York City.

A wealthy American is said to have offered \$85,000 for a house in a fashionable street in London for three months. Had it not been a fool to whom the offer was made, a fool and his money would have been parted very soon.

The Des Moines Capital says Senator Bourne of Oregon is suffering from a bad case of liver complaint. That accounts for the political bile on the senator's stomach.

It does not appear that the withdrawal of American warships from Mexican coasts will help the Mexican government to suppress the insurrection.

The Dominion parliament will probably sit all summer; but it won't act on the reciprocity agreement until our congress ratifies it.

Ballinger gives ill health as his reason for resigning. It is certain that his action will be a decided benefit to the public health.

Why not a law prohibiting moving picture actors posing for these undesirable films? Then there would be no need of a censor.

A Washington visitor was overcome by gas. You're wrong, Claye! it happened in a hotel, not in the gallery of the house.

Richmond Pearson Hobson will have to postpone his war with Japan till all those troops get back from the Mexican border.

It is awful to think what Senator Bailey's feelings would have been had his resignation been accepted.

#### EASY-WRINGING MOPS BOON TO HOUSEWIVES

One of the latest labor-saving devices on the market, one that will Advertisements in this Column are be hailed with delight by all the 10 cents per line, each insertion. housewives, is the new "easy-wring- Five words to the line. ing" mop. It makes housework a pleasure, inasmuch as the hands need not be soiled when cleaning floors. All that is necessary is to turn a small knob and the mop is much drier than it is possible to make it by useless physical exertion. It can be made equally useful on the floor, wall or ceiling. The price is reasonable and the handy little time and temper saver may be seen at the Bonanza office.

## IN BRITISH COLUMBIA VAN COUVER, B. C., March 18.

SMALL DIAMONDS FOUND

The director of the geological survey announced yesterday that diamonds have been discovered by the survey in British Columbia, the first recorded discovery of the kind in Canada. The specimens were obtained on Olivine mountain, near Tallaneen river. The diamonds are not much larger than a pin head and the discovery would seem to be of scientific rather than commercial importance.
